

More inoculant choices. More inoculant advice.

TAKE ADVANTAGE OF VALUABLE YEAR END SAVINGS!

SAVE UP TO 12%** with our 2012 Early Order and Early Pay Programs offering flexible terms tailored to you!

In 2012, Viterra is featuring inoculants for pulses and soybeans from the three leading inoculant suppliers in Western Canada. There are a number of great reasons to make Viterra your inoculant supplier, including:

- Exceptional storage and distribution capabilities
- Easy access to product
- Network of Viterra's Managers of Agronomic Services to help you get the most out of your pulses and soybean crops
- The most extensive grain handling network to maximize your grain marketing opportunities

NEW! INTX Microbials – N-Row and N-Charge pea and lentil inoculants

Novozymes® – Tag Team® / Jumpstart® / Optimize® / PulseSignal II™ / Cell Tech®

Becker Underwood® – Nodulator® XL for pulses and Nodulator® NT for soybeans - **NEW for 2012!**

Don't miss out! To find out more about Viterra's exclusive inoculant lineup contact your local Viterra sales rep or contact Viterra Forages & Special Crop help desk at 1.800.661.3334
