DURUM PERFORMANCE CHECKS

Name	Prairie AVG % of Strongfield	Alberta % of Strongfield	Saskatchewan % of Strongfield	Lodging (4.5 Strongfield)	Protein	Maturity	Height
AC BRIGADE	107%	103%	110%	2.5	-1.0%	+2 days	8 cm
Disease	R to Stem and Leaf Rust, I to Fusarium Head Blight						
Comments	Brigade offers growers a significant increase in yield potential for their Durum crop. At 107% of check, Brigade out yields all other durum varieties in Viterra's DPC's by 5% or more! Brigade also has the added benefit of improved FHB resistance over its predecessors.						

GRAIN PROGRAMMING

- **Variety specific pricing**
- **High end user demand**
- **Production contract required**

VARIETY DESCRIPTION

AC Brigade - Offers improved agronomic performance and reduced Cadmium levels while maintaining strong gluten and high pigment traits.

- Top yielding Durum in all Durum Performance checks.
- Excellent standability.
- Strong leaf disease package.
- Strong gluten and high pigment make for high end use demand.

AC Navigator - A semi-dwarf, desert durum variety with excellent harvestability and specific end-use traits.

- Excellent standability
- Good lodging resistance in wet conditions
- **Very good yield potential**
- Suited to the western portions of the durum growing areas in southwestern SK and southern AB

NAVIGATOR CROP PROTECTION PROGRAMMING

CROP ESTABLISHMENT

Step 1 - Purchase a CROP ESTABLISHMENT product and receive \$0.01/bu

CROP PROTECTION

Step 2 - Purchase a CROP PROTECTION product and receive \$0.03/bu

CROP ENHANCEMENT

Step 3 - Purchase a CROP ENHANCEMENT product and receive \$0.05/bu

**RECEIVE UP TO
\$0.05/BU over bid**

	Roundup WeatherMAX [®] herbicide
	Heat [™]
	Raxil [®] WW
	Varro [™] herbicide
	Buctril [®] M
	Thumper [®]
Caramba [®]	
Prosaro [®]	

- Minimum of 160 acres of seed purchase(s) required to qualify, up to a maximum of contracted acres per category.
- 50 bu/acre will be utilized in rebate calculations.
- *ex. If customer contracts 160 acres of seed and purchases 160 acres from all 3 categories, they will receive \$0.05/bu multiplied by 50 bu/acre multiplied by 160 acres = a rebate of \$400 upon the grain delivery.*
