

Viterra At-A-Glance

Corporate Snapshot

Viterra Inc. provides premium quality ingredients to leading global food manufacturers. Headquartered in Canada, the global agribusiness has extensive operations across Western Canada, the United States, Australia, and New Zealand, with Adelaide, Australia as the base for Viterra's Southeast Asian operations. Our growing international presence also extends to offices in Japan, Singapore, China, Switzerland, Italy, Ukraine and Germany. Driven by an entrepreneurial spirit, we operate in three distinct businesses: grain handling and marketing, agri-products, and value-added processing. Our expertise, close relationships with producers, and superior logistical assets allow the company to consistently meet the needs of the most discerning end-use customers, helping to fulfill the nutritional needs of people around the world.

Investment Highlights

- Global agri-business supplying 50+ countries
- Integrated value chain that leverages global intelligence to drive value
- State-of-the-art grain handling and marketing infrastructure strategically located in prime agricultural regions
- Diversified earnings base
- Architects of change and integration
- Stable financial performance and superior balance sheet

The Right Model for Business Success – *three distinct businesses*

GRAIN HANDLING & MARKETING

Viterra receives, processes, transports and markets coarse grains, oilseeds and special crops to destinations around the world through its grain handling networks in Canada and Australia. To secure new sources of origination and additional markets, Viterra has invested in a global network of marketing and trading offices strategically located on four continents.

- Viterra globally ships up to 24 million tonnes of grain and oilseeds annually
- Viterra has up to 45% of the market share in Canada
- 83 elevators and 12 special crop facilities in North America
- Viterra delivers more than 80% of North American shipments in 50 and 100 car loads
- In Canada, Viterra has 5 export terminals and a shared interest in a sixth
- With 108 primary grain elevators and 8 bulk export port terminals, South Australia has an aggregate storage capacity of 10.2 million metric tonnes

AGRI-PRODUCTS

Through our retail outlets, Viterra provides seed, crop protection products, fertilizer, equipment and agronomic and financial solutions. Viterra acts as a broker, direct buyer and exporter of wool in Australia.

- Viterra has 34% market share, 262 agri-product facilities and over 30 proprietary seed varieties
- 34% interest in Canadian Fertilizer Limited (CFL), a nitrogen fertilizer plant in Alberta, Canada
- Viterra loans in excess of \$1.4 billion in credit to farmers annually to finance purchases of the company's crop inputs and equipment
- Australia's wool operation extends to the states of South Australia, Western Australia and Victoria

PROCESSING

Viterra's involved in processing oats, wheat, custom-coated grains and canola in North America. We have malt processing in Canada and Australia, and durum processing, and pasta manufacturing in the US.

With custom mills, Viterra provides animal feed products and nutrients to the dairy, beef, poultry, hog and sheep industries.

- Viterra is one of the world's largest industrial oat millers with 39% of North American oat milling capacity and 46% of the industrial ingredients supply market
- The acquisition of 21st Century Grain in 2010 has diversified our oat food product line to include coated and clustered ingredients
- Viterra is the third largest institutional pasta manufacturer in North America following the acquisition of Dakota Growers Pasta Company in 2010
- Viterra has custom mills that provide more than 2 million tonnes of high quality animal feed products and nutrients annually in Canada, the United States and New Zealand
- Viterra is the largest maltster in Australia with 63% of the country's malt production, supplying major breweries in Australia and Asia
- Currently constructing a joint venture canola crushing facility in South China

Did you know....

- Viterra's sourced and marketed grain is delivered to customers in more than 50 countries
- Viterra processes 2 million lbs of oatmeal and 1 million lbs of pasta a day – feeding 26 million people per day
- Viterra has the largest expeller press canola crush plant in the world (press crush is a mechanical method for extracting oil from raw materials)
- Viterra's Research & Development Centre, located in Saskatchewan, Canada, collaborates with universities, Government research organizations and multi-nationals to produce leading edge seed varieties
