

Multi-Grade Canola Contract

How does the Multi-Grade Canola Contract work?

The Multi-Grade Canola Contract gives you the flexibility to deliver multiple grades of canola onto the same contract. At the time of contracting you will secure the price of the following grades on your contract, depending on which state you are in:

South Australia:	CANO and CAN2
Victoria and New South Wales:	CANO, CANG and CAN2
Western Australia:	CAN1, CGM1 and CAN2

Acceptance and pricing of any other grades not listed on the contract will be at Viterra's discretion.

Quantity tolerance

There is zero quantity tolerance on the Multi-Grade Canola Contract. This means that you are required to deliver the exact tonnage as nominated on your contract.

Availability

The Multi-Grade Canola Contract is only available in selected port zones. Viterra may remove the ability to enter into a Multi-Grade Canola Contract at its discretion without notice. Please check the Viterra bid sheet to see if the Multi-Grade Canola Contract is currently available.

How do I enter into a Multi-Grade Canola Contract?

Provided you are a registered signatory of your trading entity and have returned a signed acceptance of Viterra's General Terms of Business for Grain Purchases, you can take out a Multi-Grade Canola Contract by contacting the Viterra Service Centre on 1800 018 205 or your local Customer Relationship Manager. WA growers can call the WA Office on 1800 000 623.

Delivery

Growers in SA, VIC, NSW, QLD and TAS need to register with the National Grower Register (NGR) and deliver using their NGR delivery number. Growers in WA can register with the NGR but must also register their business with Viterra and deliver using their CBH delivery number. WA grower registration forms are available under Grain Marketing on the Viterra website at www.viterra.com.au or by ringing the WA Office on 1800 000 623.

How will I be paid for my deliveries?

You will receive 100% cash payment for your contracted grain deliveries, 9 days from the end of the week of delivery or transfer onto the contract. This applies to contracts written for delivery at selected bulk handlers, such as Graincorp, CBH, Grainflow, ABA and Viterra, and at selected independent receival sites. This means payment will occur on or by the 9th day, after the end of the calendar week the goods are delivered or transferred onto the contract. A calendar week begins on the morning of a Monday and ends at midnight the following Sunday.

For more information visit www.viterra.com.au, call the Viterra Service Centre on 1800 018 205 or call the WA Office on 1800 000 623

Contracts written for delivery outside of the selected bulk handlers and independent receival sites will receive payment 30 days from the end of week of delivery or transfer onto the contract. For more information about the payment terms that Viterra offers for contracts at a particular receival site contact the Viterra Service Centre on 1800 018 205. WA growers can call the WA Office on 1800 000 623.

Quality

Quality adjustments will be made in accordance with the Australian Oilseed Federation (AOF) standards for oil (using a 42% base), admixture and other quality specifications of the relevant season. (In WA the price premium is capped at maximum 44.5% oil.) The AOF standards are available from the AOF website at www.australianoilseeds.com.

Location differentials

Your contract price will often be quoted on a port basis. As most grain deliveries are made at up-country delivery sites, i.e. sites other than the port itself, you will incur a location differential adjustment to take account of the freight and associated up-country costs from the actual delivery site to the port. We will deduct the Grain Trade Australia (GTA) location differentials of the season, as deemed applicable by Viterra, from your port based contract price.

Levies

Viterra will deduct any relevant statutory or research levies from your contract payment. For more information about the levies that apply in your state, contact the Viterra Service Centre on 1800 018 205. WA growers can call the WA Office on 1800 000 623.

Production risk

The Multi-Grade Canola Contract is a forward contract for the physical delivery of grain. There is a risk that at harvest you may not have sufficient grain to fulfil your contract. In the event that you cannot deliver the contracted grain, you will be liable to Viterra for a payment of liquidated damages called a "Washout Value" calculated under the contract. In the event of a Washout, the base grade for washout calculations on this contract will be CANO in SA, VIC or NSW or CAN1 in WA. It is important that you understand that the risk of production failure lies with you and not with Viterra.

Terms and conditions

This contract choice is subject to the terms and conditions as set out in the Viterra General Terms of Business for Grain Purchases. The terms and conditions are available on request or on our website www.viterra.com.au. Please note direct deliveries to nominated ports for selected commodities may incur a fee.
