

Multi-Grade Fixed Malting Barley Contract (MGFM)

Characteristics

- Malting barley only contract
- Fixed price for malting 1 and malting 2
- Pay-grade based payment
- Multi-grade flexibility - reduces seasonal risk of grade variations

How does the MGFM work?

The MGFM Contract gives you the flexibility to deliver multiple malting barley grades onto the same contract providing they are of the same variety. At the time of contracting you will secure the price of malting 1 and malting 2 on your contract. Acceptance and pricing of any grades not listed on the contract will be at the discretion of Viterra.

Quantity Tolerance

There is zero quantity tolerance on the MGFM Contract. This means that you are required to deliver the exact tonnage as nominated on your contract.

Availability

MGFM Contracts are only available for Baudin, Buloke and Gairdner varieties in selected WA port zones. Viterra may remove the ability to enter into a MGFM Contract at its discretion without notice. Please check with the WA office to see where the MGFM Contract is currently available.

How do I enter into an MGFM Contract?

Provided you are a registered signatory of your trading entity and have signed and returned, or submitted online, your acceptance of Viterra's General Terms of Business for Grain Purchases, you can take out an MGFM Contract by contacting the WA Office on 1800 000 623.

Delivery

Growers in WA can register with the NGR but must also register their business with Viterra and deliver using their CBH delivery number. WA Grower Registration forms are available under Grain Marketing on the Viterra website at www.viterra.com.au or by ringing the WA Office on 1800 000 623.

How will I be paid for my deliveries?

You will receive 100% cash payment for your contracted grain deliveries, 9 days from the end of the week of delivery or transfer onto the contract. This applies to contracts written for delivery at selected bulk handlers, such as CBH, and at selected independent receival sites.

For more information visit www.viterra.com.au , call the Viterra Service Centre on 1800 018 205 or call the WA Office on 1800 000 623

Viterra Ltd ABN 59084962130 AFSL No. 247279 Form No. 3483/2
Current as at 22 July 2011 and subject to change without notice

This means payment by or on the 9th day after the end of the calendar week the goods are delivered or transferred onto the contract. A calendar week begins on the morning of a Monday and ends at midnight the following Sunday.

Contracts written for delivery outside of the selected bulk handlers and independent receival sites will receive payment 30 days from the end of week of delivery or transfer onto the contract. For more information about the payment terms that Viterra offers for contracts at a particular receival site contact the Viterra Service Centre on 1800 018 205 or the WA Office on 1800 000 623.

Levies

Viterra will deduct any relevant statutory or research levies from your contract payment. For more information about the levies that apply in your state, contact the Viterra Service Centre on 1800 018 205. WA growers can call the WA Office on 1800 000 623.

Risks

Production Risk: the MGFM Contract is a forward contract for the physical delivery of grain. There is a risk that at harvest you may not have sufficient grain to fulfil your contract. In the event that you cannot deliver the contracted grain you will be liable to Viterra for a payment of liquidated damages called a "Washout Value" calculated under the contract. In the event of a Washout the base grade for washout calculations on this contract will be Malting 1. It is important that you understand that the risk of production failure lies with you and not with Viterra.

Terms and Conditions

This contract choice is subject to the terms and conditions as set out in the Viterra General Terms of Business for Grain Purchases, copies of which are available on request or on our website www.viterra.com.au. Direct deliveries to nominated ports for selected commodities may incur a fee.
